ABOUT CIIC

Crescent Innovation and Incubation Council (CIIC), is a not-for-profit, innovation arm of B.S. Abdur Rahman Crescent Institute of Science and Technology (BSACIST), deemed to be a University. BSACIST has a long history of 40 years of nurturing entrepreneurs and industrialists.

CIIC empowers deep tech entrepreneurs through specialized support in Life Sciences, Industry 4.0, Defence Technologies, and Smart & Clean Mobility. we have successfully nurtured over 200 startups in the past five years, helping them secure funding of Rs. 301 Crore through government grants and private investments.

The impact of our portfolio companies resonates throughout India's innovation landscape, having created 1,560 jobs and driving technological advancement. Our excellence is recognized by 10 Union & State Ministries of India, who have collectively allocated Rs. 51 Crore to support our mission of fostering technological innovation and entrepreneurship nationwide.

CIIC is recognized and funded by the Eight Union Ministries of India, and State Government of Tamil Nadu.

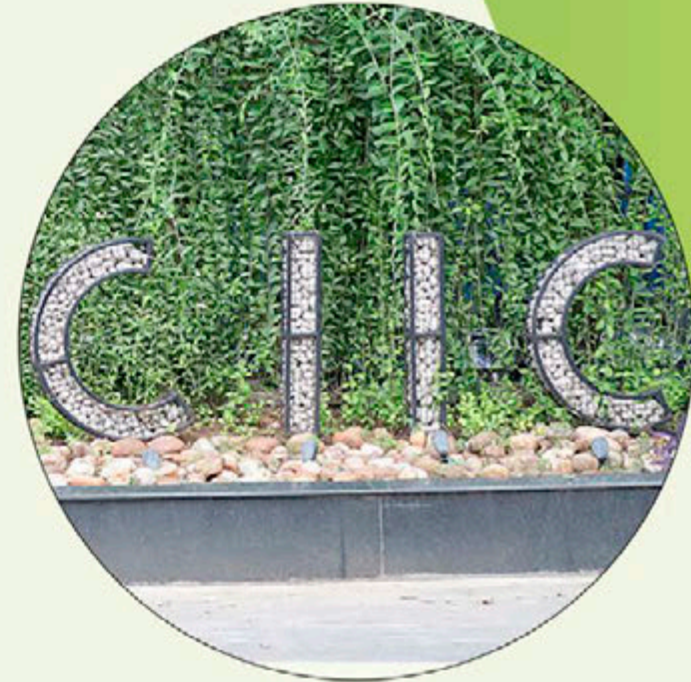

Union Ministries:

- The Ministry of Commerce and Industry
- The Ministry of Science and Technology
- The Ministry of Electronics and Information Technology
- The Ministry of Fisheries, Animal Husbandry, and Dairying
- The Ministry of Micro, Small, and Medium Enterprises
- The Ministry of Education
- The Ministry of Defence
- Atal Incubation Centre - NITI AAYOG

Government of Tamil Nadu:

- StartupTN
- Entrepreneurship Development and Innovation Institute (EDII-TN), Government of Tamil Nadu

CIIC aims to support & render startups into profitable entities through the mission statement called **Five 'M' – Mentor, Money, Market, Machineries & More** value-added services. Transforming innovation into scalable business models with high productive impact and encouraging interdisciplinary advancement both nationally and internationally.

Founder

Urban Mushroom Farming Innovation

At Akaththi Farms, we are pioneering a breakthrough in urban farming by developing a decentralized, super-local urban farm model for exotic mushroom cultivation. Our proprietary micro-farm architecture, powered by kaaniOS, enables us to transform underutilized urban spaces rooftops, balconies, or commercial corners into high-yield mushroom farms within hours. This innovation eliminates dependency on traditional large-scale indoor farming while ensuring fresh, organic, and nutrient-rich exotic mushrooms are accessible to urban communities.
