

CIIC-LIVELIHOOD BUSINESS INCUBATOR MADURAI CAMPUS

CIIC – LBI empowers rural entrepreneurs through skill development, incubation support, and advanced processing infrastructure under the ASPIRE initiative. The incubator promotes sustainable livelihoods, innovation, and micro-enterprise growth by providing training, mentoring, and market-oriented opportunities across Tamil Nadu.

Blender

CIIC'S BRANCHES

CIIC's Chennai and Bengaluru campuses provide dynamic co-working spaces designed to support startups with innovation-driven infrastructure, collaboration opportunities, and business growth support. These campuses empower entrepreneurs with a professional ecosystem that fosters ideation, incubation, networking, and acceleration.

SMART & CLEAN MOBILITY

Atal Incubation Centre – Crescent Innovation & Incubation Council (AIC-CIIC) is a dedicated initiative designed to foster and support startups in the automotive and smart clean mobility sectors, empowering innovators to drive next-generation mobility solutions and transformative automotive technologies.

BUILT ENVIRONMENT

Empowering startups in the built environment sector to create sustainable, resilient, and smart infrastructure solutions. Focused on transforming urban and rural spaces through innovation in green buildings, smart cities, energy-efficient systems, and next-generation sustainable development.

Smart Infrastructure | Sustainable Construction | Green Buildings
Urban Planning | Smart Cities | Energy Efficient Systems
Construction Tech | PropTech | Waste Management | Water Management
